GREAT LANDSCAPE PHOTOGRAPHY
with Jackie Ranken

Jackie's personal challenge is to capture the essence of wherever she is on the planet. To notice the beauty in shapes, textures and light, while at the same time referencing who she is and what she likes to photograph. "My image making is intuitive and spontaneous; I primarily make images that present themselves to me. I believe in following my intuition and in the process of 'going with the flow'. I work hard to get the shot and once realised I then will go on to find the next one. My work will never finish and I love it this way."

Jackie Ranken is a Master of the Australian Institute of Professional Photography, twice winner of the Australian Institute Landscape Photographer of the Year, winner of a World Press Award, A Master & Fellow of the New Zealand Institute of Professional Photography, 30 years experience as a Professional Photographer.

GREAT LIGHTING AND POSING
With Rocco

Rocco's distinctive style is classical and romantic: his imagery is exquisitely imbued with evocative lighting and composition similar to that found in numerous wonderfully-crafted movies from the 1940s and '50s. Complementing this artistry is that special ability common to all great people photographers—being able to connect with the people so they interact comfortably with the photographer and feel at ease in front of the camera.

In the last six years, Rocco has won the Australian Institute of Professional Photography's Wedding Photographer of the Year Award four times!
